

SE- Introduction to Web Technologies - HTML and CSS

Mini Project 6 – “Social Bio Link Page – UI Design” Objective: Build a personal bio link page (links to Instagram, LinkedIn, Spotify, etc.) with responsive design. Trainer Notes: Guide students to implement a form that accepts link inputs and shows preview cards.

Task :

Question :- 1

Create an HTML form called musicLinksForm that accepts Spotify, YouTube Music, and Apple Music profile URLs as input fields, and display the submitted links as styled preview cards below the form.

Ans:-

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Music Links Form</title>

  <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

  <link rel="stylesheet" href="https://cdn.jsdelivr.net/npm/bootstrap-
icons@1.11.3/font/bootstrap-icons.min.css">

</head>

<body>

  <div class="container mt-5">

    <h2 class="text-center mb-4">
```

Music Links Form

</h2>

<form id="musicForm">

<div class="mb-3">

<label>Spotify URL</label>

<input type="url" id="spotify" class="form-control" placeholder="Enter Spotify URL">

</div>

<div class="mb-3">

<label>YouTube Music URL</label>

<input type="url" id="youtube" class="form-control" placeholder="Enter YouTube Music URL">

</div>

<div class="mb-3">

<label>Apple Music URL</label>

<input type="url" id="apple" class="form-control" placeholder="Enter Apple Music URL">

</div>

<button class="btn btn-success">

Submit

</button>

</form>

<hr>

<div id="preview" class="row"></div>

</div>

<script>

document.getElementById("musicForm").addEventListener("submit",
function (e) {

e.preventDefault();

```

let spotify = document.getElementById("spotify").value;

let youtube = document.getElementById("youtube").value;

let apple = document.getElementById("apple").value;

let preview = document.getElementById("preview");

preview.innerHTML = "";

if (spotify != "") {

    preview.innerHTML += `

<div class="col-md-4">

<div class="card border-success mb-3">

<div class="card-body">

<h4><i class="bi bi-spotify text-success"></i> Spotify</h4>

<a href="${spotify}" target="_blank" class="btn btn-success">

Visit

</a>

</div>

</div>

</div>

</div>

`;

}

if (youtube != "") {

    preview.innerHTML += `

<div class="col-md-4">

<div class="card border-danger mb-3">

<div class="card-body">

<h4><i class="bi bi-youtube text-danger"></i> YouTube Music</h4>

<a href="${youtube}" target="_blank" class="btn btn-danger">

Visit

</a>

```

```

</div>

</div>

</div>

`;

    }

    if (apple != "") {

        preview.innerHTML += `

<div class="col-md-4">

<div class="card border-dark mb-3">

<div class="card-body">

<h4><i class="bi bi-apple"></i> Apple Music</h4>

<a href="${apple}" target="_blank" class="btn btn-dark">

Visit

</a>

</div>

</div>

</div>

</div>

`;

    }

});

</script>

</body>

</html>

```

Question :- 2

Design a responsive UI for a personal 'Gamer Tag' bio link page that adapts to both mobile and desktop screens, showing the user's avatar, gaming alias, and buttons linking to their Twitch, Discord, and Steam profiles.

Hint: Use CSS Flexbox or Grid for layout and media queries for responsiveness.

Ans:-

```
<!DOCTYPE html>

<html>

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Gamer Bio</title>

  <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

  <style>

    .profile {

      max-width: 400px;

      margin: auto;

      text-align: center;

      margin-top: 50px;

    }

    .profile img {

      width: 150px;

      border-radius: 50%;

    }

  </style>

</head>

<body>
```

```

<div class="profile">

  

  <h2>Madhav Gamer</h2>

  <p>BGMI • Valorant • GTA V</p>

  <a href="#" class="btn btn-primary m-2">

    Twitch

  </a>

  <a href="#" class="btn btn-secondary m-2">

    Discord

  </a>

  <a href="#" class="btn btn-dark m-2">

    Steam

  </a>

</div>

</body>

</html>

```

Question :- 3

Style the input form for adding social links so that each input field displays a platform icon (Instagram, LinkedIn, etc.) inside the input box, similar to how Zomato shows icons in their search bar.

Hint: Use background-image or position an inside the input with CSS.

Ans:-

```

<!DOCTYPE html>

<html>

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Input Icons</title>

```

```
<link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">
```

```
<link rel="stylesheet" href="https://cdn.jsdelivr.net/npm/bootstrap-
icons@1.11.3/font/bootstrap-icons.min.css">
```

```
<style>
```

```
.input-group-text {
    width: 50px;
    justify-content: center;
}
```

```
</style>
```

```
</head>
```

```
<body>
```

```
<div class="container mt-5">
```

```
<div class="input-group mb-3">
```

```
<span class="input-group-text">
```

```
<i class="bi bi-instagram"></i>
```

```
</span>
```

```
<input type="text" class="form-control" placeholder="Instagram URL">
```

```
</div>
```

```
<div class="input-group mb-3">
```

```
<span class="input-group-text">
```

```
<i class="bi bi-linkedin"></i>
```

```
</span>
```

```
<input type="text" class="form-control" placeholder="LinkedIn URL">
```

```
</div>
```

```
<div class="input-group mb-3">
```

```
<span class="input-group-text">
```

```
<i class="bi bi-spotify"></i>
```

```

        </span>

        <input type="text" class="form-control" placeholder="Spotify URL">

    </div>

</div>

</body>

</html>

```

Question :- 4

After submitting the form, show a preview card for each link with the platform logo, the username/handle extracted from the URL, and a 'Visit' button that opens the link in a new tab.

Constraint: The preview cards must look visually distinct for each platform (different colors or borders).

Ans:-

```

<!DOCTYPE html>

<html>

<head>

    <meta charset="UTF-8">

    <meta name="viewport" content="width=device-width, initial-scale=1.0">

    <title>Preview Cards</title>

    <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

    <link rel="stylesheet" href="https://cdn.jsdelivr.net/npm/bootstrap-
icons@1.11.3/font/bootstrap-icons.min.css">

</head>

<body>

    <div class="container mt-5">

        <div class="row">

            <div class="col-md-4">

```

```
<div class="card border-success">

  <div class="card-body">

    <h4>

      <i class="bi bi-spotify text-success"></i>

      Spotify

    </h4>

    <p>Username : krushnam123</p>

    <a href="https://open.spotify.com" target="_blank" class="btn btn-
success">

      Visit

    </a>

  </div>

</div>

</div>

<div class="col-md-4">

  <div class="card border-danger">

    <div class="card-body">

      <h4>

        <i class="bi bi-youtube text-danger"></i>

        YouTube Music

      </h4>

      <p>Username : musiclover</p>

      <a href="https://music.youtube.com" target="_blank" class="btn btn-
danger">

        Visit

      </a>

    </div>

  </div>

</div>

</div>
```

```
<div class="col-md-4">

  <div class="card border-dark">

    <div class="card-body">

      <h4>

        <i class="bi bi-apple"></i>

        Apple Music

      </h4>

      <p>Username : applemusic01</p>

      <a href="https://music.apple.com" target="_blank" class="btn btn-
dark">

        Visit

      </a>

    </div>

  </div>

</div>

</div>

</body>

</html>
```
