

SE- Introduction to Web Technologies - HTML and CSS

Session 11: Bootstrap Utilities & Customization Coverage: Spacing, Typography, Colors, Custom CSS overrides. Demo: Theme switcher using Bootstrap classes.

Task :

Question :- 1

Create an HTML page that uses Bootstrap utility classes to add 3 different levels of spacing (margin and padding) around a card displaying a Flipkart-style product image and name.

Ans:-

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Flipkart Product Card</title>

  <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

</head>

<body>

  <div class="container mt-5">

    <div class="card m-5 p-4">

      

      <div class="card-body">

        <h4 class="card-title">
```

```
        Lenovo LOQ Laptop
    </h4>
    <p>Gaming Laptop | ₹65,999</p>
</div>
</div>
</div>
</body>
</html>
```

Question :- 2

Build a movie review card (like BookMyShow) using Bootstrap typography utilities to style the movie title, rating, and review text with different font weights and sizes.

Ans:-

```
<!DOCTYPE html>
<html>
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Movie Review</title>
    <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">
</head>
<body>
    <div class="container mt-5">
        <div class="card p-4">
            <h2 class="fw-bold display-6">
```

```

        The Big Bull
    </h2>

    <p class="fs-5 text-warning">
        ★ ★ ★ ★ ☆ (4.3/5)
    </p>

    <p class="fw-light">
        The Big Bull is an inspiring financial drama based on stock market events.
        It features strong
        performances and an engaging storyline.
    </p>
</div>
</div>
</body>
</html>

```

Question :- 3

Design a Zomato-style restaurant list where each restaurant card uses at least three different Bootstrap color utility classes to highlight ratings, offers, and open/closed status.

Ans:-

```

<!DOCTYPE html>
<html>
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Zomato Restaurants</title>
    <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

```

```
</head>

<body>

  <div class="container mt-5">

    <div class="card p-3 mb-3">

      <h3>The Grand Thakar</h3>

      <p class="text-success">

        ★ Rating : 4.5/5

      </p>

      <p class="text-danger">

        20% OFF Today

      </p>

      <p class="text-primary">

        Open Now

      </p>

    </div>

    <div class="card p-3">

      <h3>Barbeque Nation</h3>

      <p class="text-success">

        ★ Rating : 4.4/5

      </p>

      <p class="text-warning">

        10% OFF

      </p>

      <p class="text-danger">

        Closed

      </p>

    </div>

  </div>
```

```
</body>
```

```
</html>
```

Question :- 4

Override the Bootstrap primary button color in your own CSS file to use a custom shade (not the default blue), and apply it to a 'Book Ticket' button on your page.

Hint: Use the CSS selector .btn-primary in your custom stylesheet and link it after the Bootstrap CSS.

Ans:-

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
  <meta charset="UTF-8">
```

```
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
  <title>Book Ticket</title>
```

```
  <link
```

```
    href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
    rel="stylesheet">
```

```
  <style>
```

```
    .btn-primary {
```

```
      background-color: #ff5722;
```

```
      border-color: #ff5722;
```

```
    }
```

```
    .btn-primary:hover {
```

```
      background-color: #e64a19;
```

```
      border-color: #e64a19;
```

```
    }
```

```
  </style>
```

```
</head>
```

```

<body>

  <div class="container mt-5">

    <button class="btn btn-primary">

      Book Ticket

    </button>

  </div>

</body>

</html>

```

Question :- 5

Add a theme switcher button to your page that toggles between a light and dark background using Bootstrap classes, and updates the text color for readability.

Hint: Use JavaScript to toggle 'bg-light'/'bg-dark' and 'text-dark'/'text-light' classes on the main container.

Ans:-

```

<!DOCTYPE html>

<html>

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Theme Switcher</title>

  <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">

</head>

<body>

  <div class="container mt-5 bg-light text-dark p-5 rounded" id="themeBox">

    <h2>Bootstrap Theme Switcher</h2>

    <p>

```

Click the button to switch between Light Mode and Dark Mode.

```
</p>
```

```
<button class="btn btn-dark" onclick="changeTheme()">
```

Switch Theme

```
</button>
```

```
</div>
```

```
<script>
```

```
function changeTheme() {
```

```
    let box = document.getElementById("themeBox");
```

```
    box.classList.toggle("bg-light");
```

```
    box.classList.toggle("bg-dark");
```

```
    box.classList.toggle("text-dark");
```

```
    box.classList.toggle("text-light");
```

```
}
```

```
</script>
```

```
</body>
```

```
</html>
```
